

9. Module 11 Conclusion

Conclusion

WordPress

This module focused on the WordPress Web Content Management System, which is powered by the LAMP software stack. You created a WordPress-powered site with the Cloud9 cloud-based IDE. You started the process of defining your final project using human-centered design methods. By now you can:

- Install and configure a WordPress-powered website.
- Understand the basic concepts of Web Content Management Systems.
- Work with a cloud-based Integrated Development Environment (IDE).
- Conduct human-centered design methods for the inspiration phase of development.
