Phone App for
this type of site

The image shows 12 sticky notes arranged on a wooden surface, each containing handwritten text. The notes are organized into three columns and four rows. The first column contains notes about constraints, potential design hiccups, and migration tasks. The second column contains notes about distilled essences, design decisions, content migration, and creating a method. The third column contains notes about modifying the word press theme, using plugins, matching functionality, and finding a similar plugin.

Constraints/Barriers
Brainstorm on ending
when constraints

Potential Design hiccups by Darril
= Delays
- See Sine Laminic.
- had but sign on deadline.
- Explain Reasons.

Not mentioned
ask to get someone
help to find
- Out and measure
- Using software which
Darril's dates processes
- Locate these etc.

Distilled Essences:
- Content Migration
- Time Management
- Design Issues
- Group/Client Relations.
- Word Press / Theme Limitations

Design Decisions
I don't know
Gmail or Outlook
Darril's
- Talking & Mediation

Content Migration
- Complete Design early
to start server
- Using software to
extract content.

Creating a method
of adding agreements
& location for each org
early onward.
- JSON
- Finding a similar
plugin

Modifying the word press theme to suite our needs.
- Using Plugins that
allow for the features we need.
- Matching Functionality
to our theme.

Themes:

- Pleasing the Client with the timeframe.
- The need to create a new site that's easier to use than before.
- Provide a easy to maintain site.

Joshua's Tasks:

Remake Logo (PS)
Make Explore.org Site

Nicole's Tasks:

Remake Logo (AI)
Finish Prototype
