    b. Click on the tab labeled "Visual" in the visual content editor.
    c. Enter additional content in the editor.
    d. Click on the tab labeled "Text" in the visual content editor.
    e. Observe how the visual editor modified the HTML markup.

5. Save the page.
    a. Click the Update button.

6. View the page.
    a. Click the View Post link in the WordPress admin bar.

Video Screencast

This video screencast provides a complete walkthrough of the Play by Play steps above. Follow along to add a new page in your site that contains HTML markup with Bootstrap classes.

Welcome to the site

Hello world!	Sample Page
Published on 2016-10-31 Welcome to WordPress. This is your first post. Edit or delete it, then start writing!	This is an example page. It's different from a blog post because it will stay in one place and will show up in your site navigation (in most themes). Most people start with an About page that introduces them to potential site visitors. It might say something like this: Hi there! I'm a bike messenger [...]
